OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY IN MYSORE, BANGALORE.

Notification dated 15th October 1952.

(HEALTH OF LIVE-STOCK DURING SEPTEMBER 1952).

In their order of severity, outbreaks of Rinderpest, Hæmorrhagic septicæmia, Black-quarter, Anthrax, Gastro-enteritis, Sheep-pox, Foot and Mouth, Ranikhet, Rabies and Contagious-Goat, Pleuro pneumonia were encountered in the State during September 1952. Altogether 167 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 146 villages during the previous month. The number of outbreaks was highest in Shimoga, Hassan and Bangalore Districts, while Mandya, Chikmagalur and Tumkur Districts were least affected. These diseases accounted for 679 attacks, of which 572 succumbed. The departmental staff conducted 26,827 preventive inoculations and vaccinations against all the above diseases, except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest were registered in Bagepalli Taluk accounting for 19 attacks among cattle, of which 6 succumbed. Prompt measures of control were undertaken by the department to check its spread and 341 cattle in the infected villages and 495 cattle in four neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 118 villages accounting for 41 deaths, as against 123 villages accounting for 34 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 7,487 animals, as against 9,008 animals during the previous month.

Due to failure of rains, scarcity of drinking water and fodder was continued to be felt in Kolar, Tumkur, Chitaldrug and parts of Hassan, Chikmagalur Shimoga and Bangalore Districts, as a result of which 2,443 cattle are reported to have died from starvation. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya District. The villagers in the distress areas have moved their non-essential cattle into the jungle areas and Amrith Mahal Kavals that are thrown open for free grazing and the staff of the department is keeping necessary vigilance on the large gatherings of cattle for controlling any outbreaks that may be evidenced among them with a view to preventing serious losses to livestock therefrom.

P. M. NARAINSWAMY NAIDU,
Director.
